

European Commission
Agriculture and Rural Development

The Policy Framework of Agricultural Sustainability in the EU

Annette Hurrelmann
European Commission
Directorate General for Agriculture and Rural Development

Sustainability

European Commission
Agriculture and Rural Development

- **“Sustainable development is development that meets the needs of the present without compromising the ability of future generations to meet their own needs” (Brundtland Commission 1987)**
- **Gothenburg European Council 2001: European Union Strategy for Sustainable Development**
- **Sustainable development has economic, social and environmental components**
- **CAP and sustainable development: where does CAP come from, where is it now, what are the perspectives?**

Evolution of the CAP in the Course of Time

European Commission
Agriculture and Rural Development

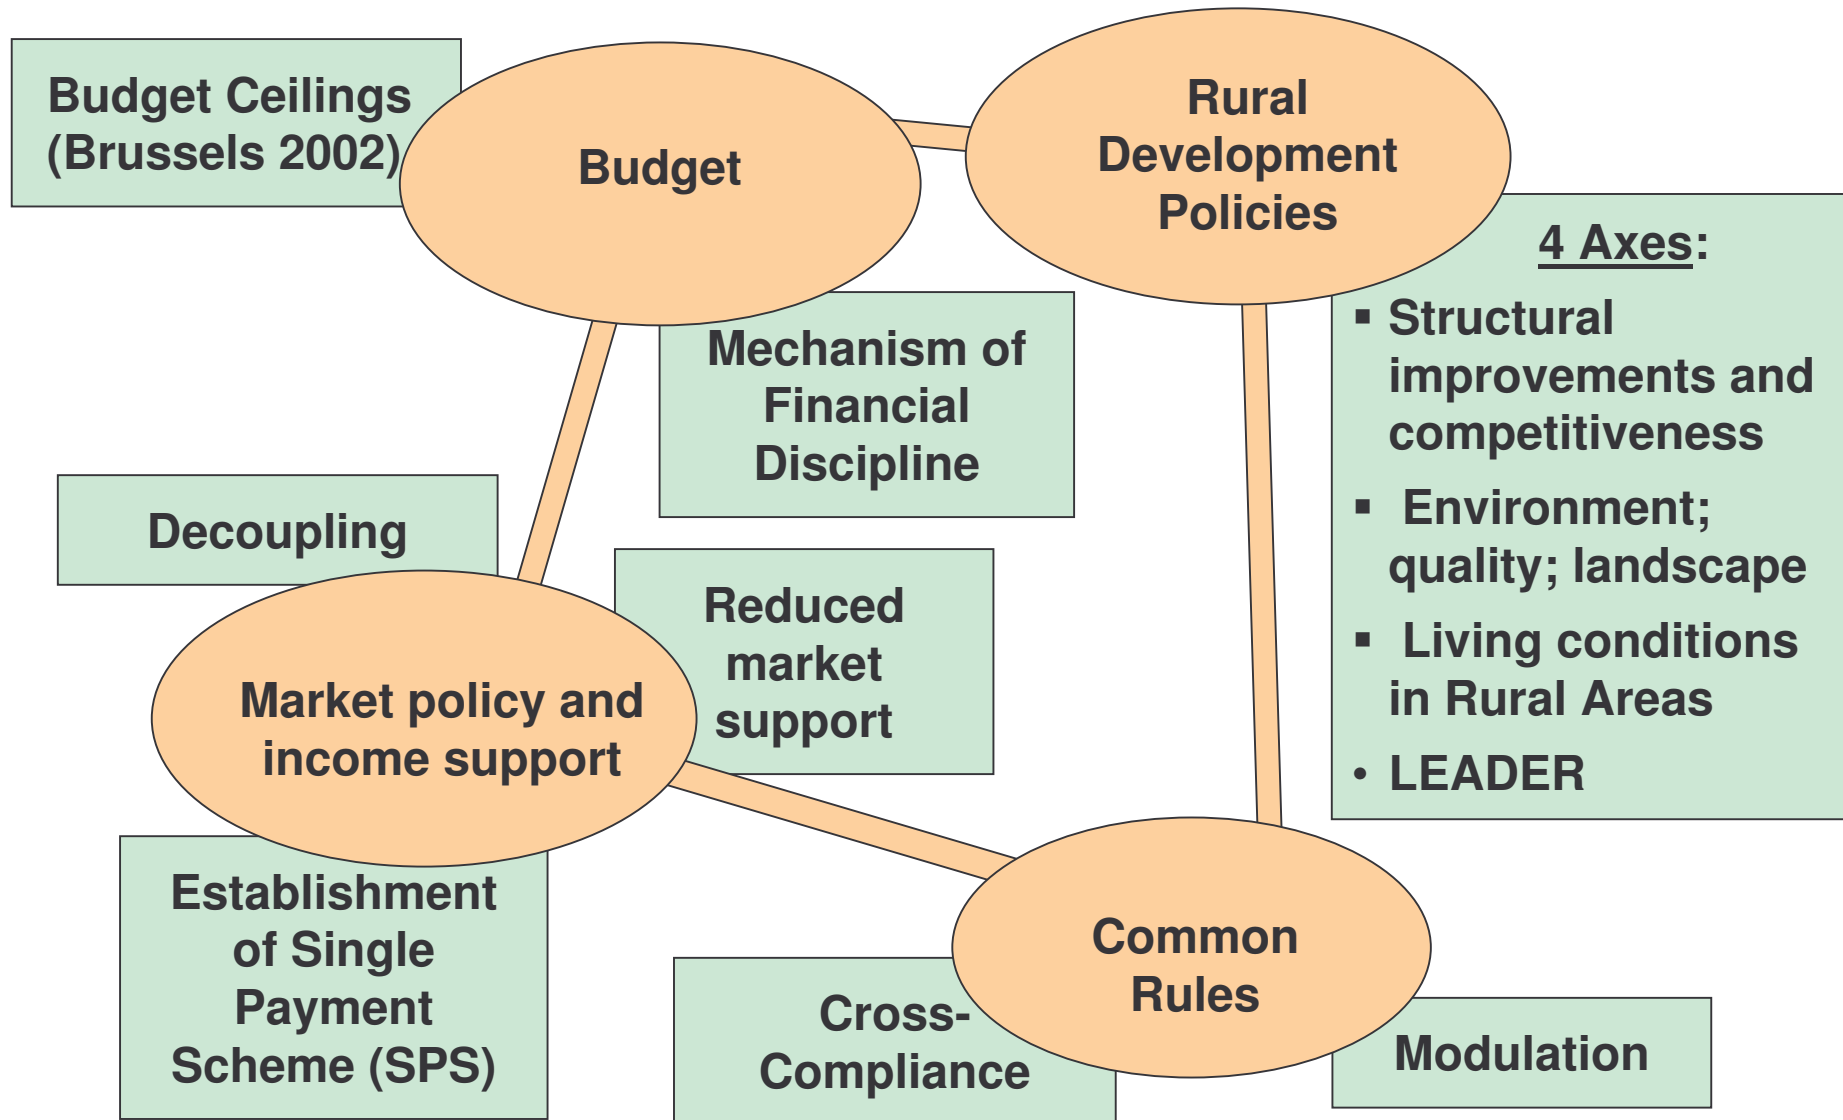

The Early Years	The Crisis Years	The 1992 Reform	Agenda 2000	Cap Reform 2003
<p>Food security</p> <p>Improving productivity</p> <p>Market-stabilisation</p> <p>Income support</p>	<p>Over production</p> <p>Exploding expenditure</p> <p>International friction</p> <p>Structural measures</p>	<p>Reduced surpluses</p> <p>Environment</p> <p>Income stabilisation</p> <p>Budget stabilisation</p>	<p>Deepening the reform process</p> <p>Competitiveness</p> <p>Rural Development</p>	<p>Market orientation</p> <p>Consumer Concerns</p> <p>Farm income</p> <p>Rural development</p> <p>Environment</p>

CAP Reform 2003

CAP Reform 2003: Integrating the Environment

European Commission
Agriculture and Rural Development

CAP reform 2003

European Commission
Agriculture and Rural Development

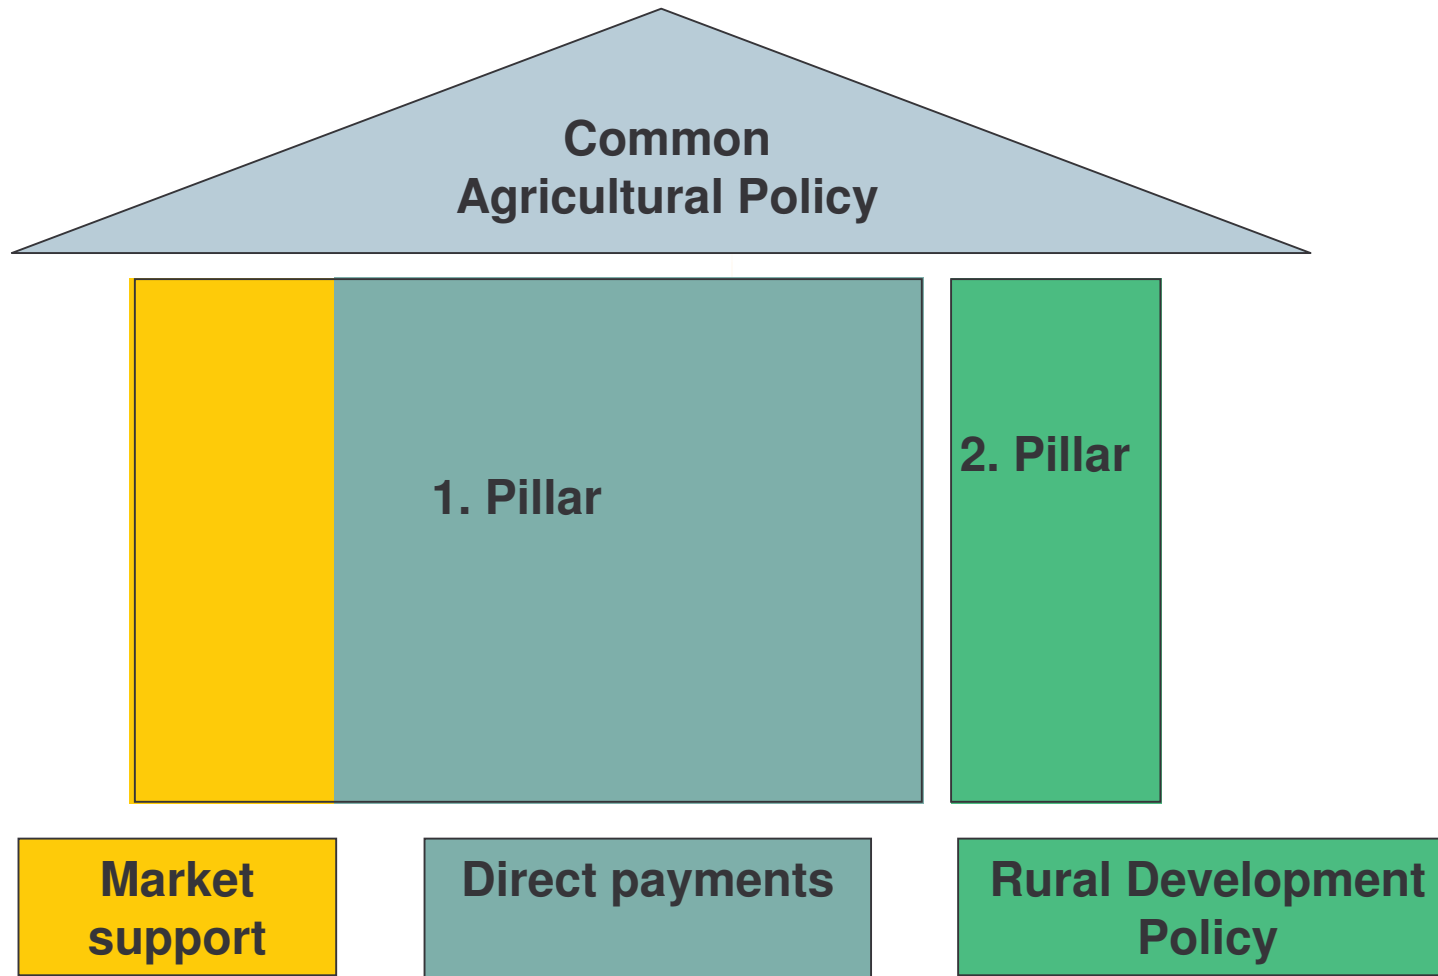

Two pillars of the CAP

European Commission
Agriculture and Rural Development

Rural Development Policy 2007-2013

European Commission
Agriculture and Rural Development

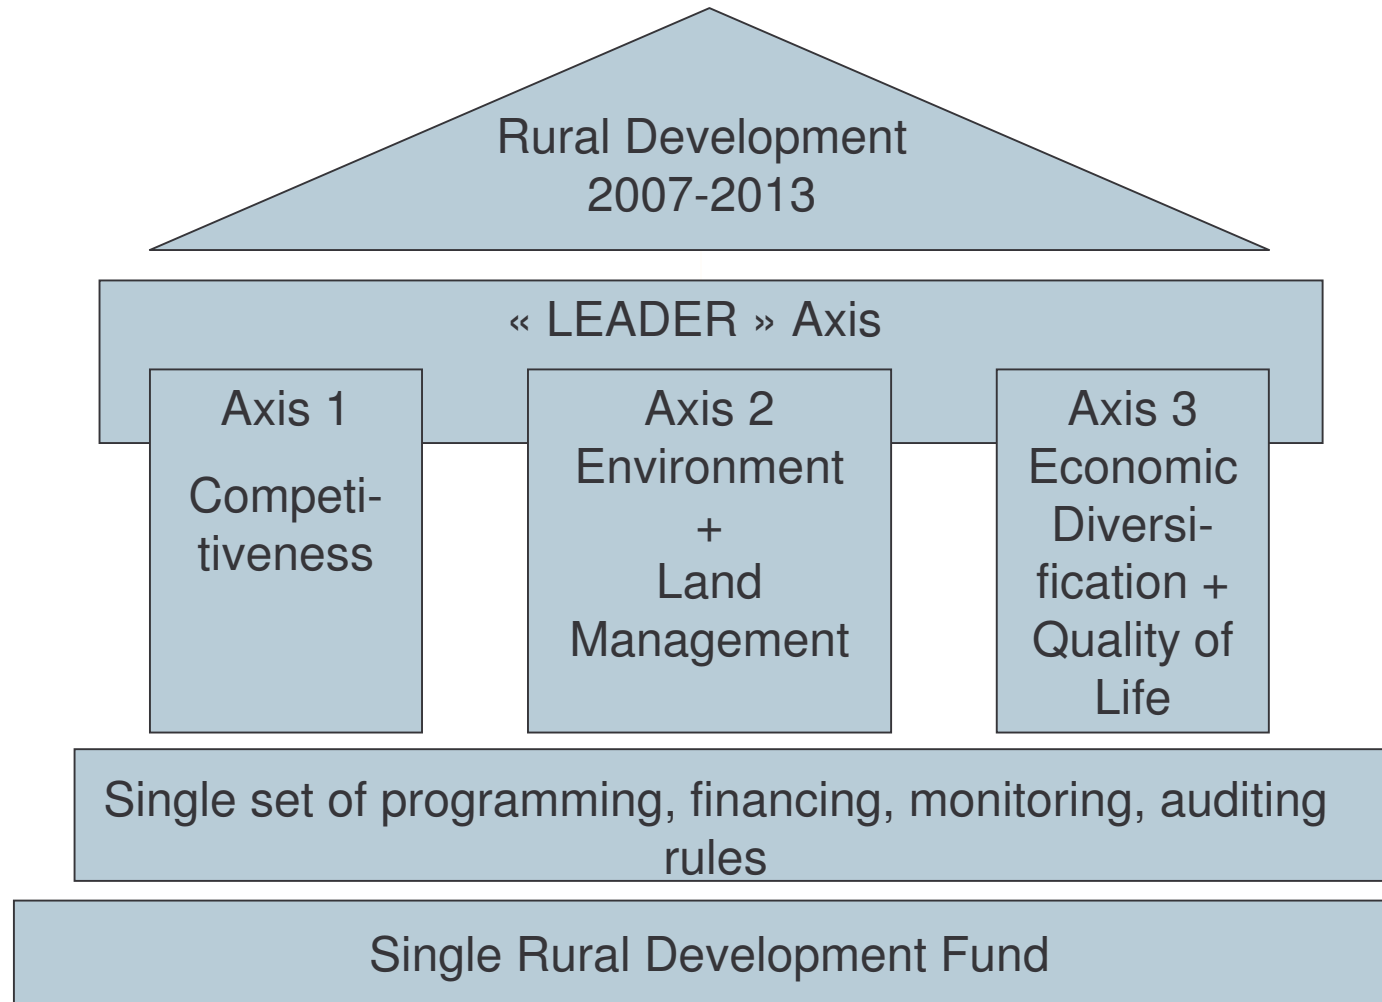

Three core objectives:

- Improving the competitiveness of the farm and forestry sector through support for restructuring, development and innovation
- Improving the environment and the countryside through support for land management
- Improving the quality of life in rural areas and encouraging diversification of economic activity

Rural Development Policy 2007-2013

European Commission
Agriculture and Rural Development

Challenges and Perspectives

European Commission
Agriculture and Rural Development

“Health Check“:

- At the time of 2003, 2004 and sugar reforms, a series of “health check” clauses introduced in final agreements
- Over period 2007-2009 Commission must report on:
 - Cross-compliance
 - Partial decoupling
 - Choice of implementation model for SPS
 - Certain markets (e.g. milk)
- “Political reality check” – not planned as major reform
- Opportunity to reflect longer-term vision of the CAP (post-2013)

Challenges and Perspectives

European Commission
Agriculture and Rural Development

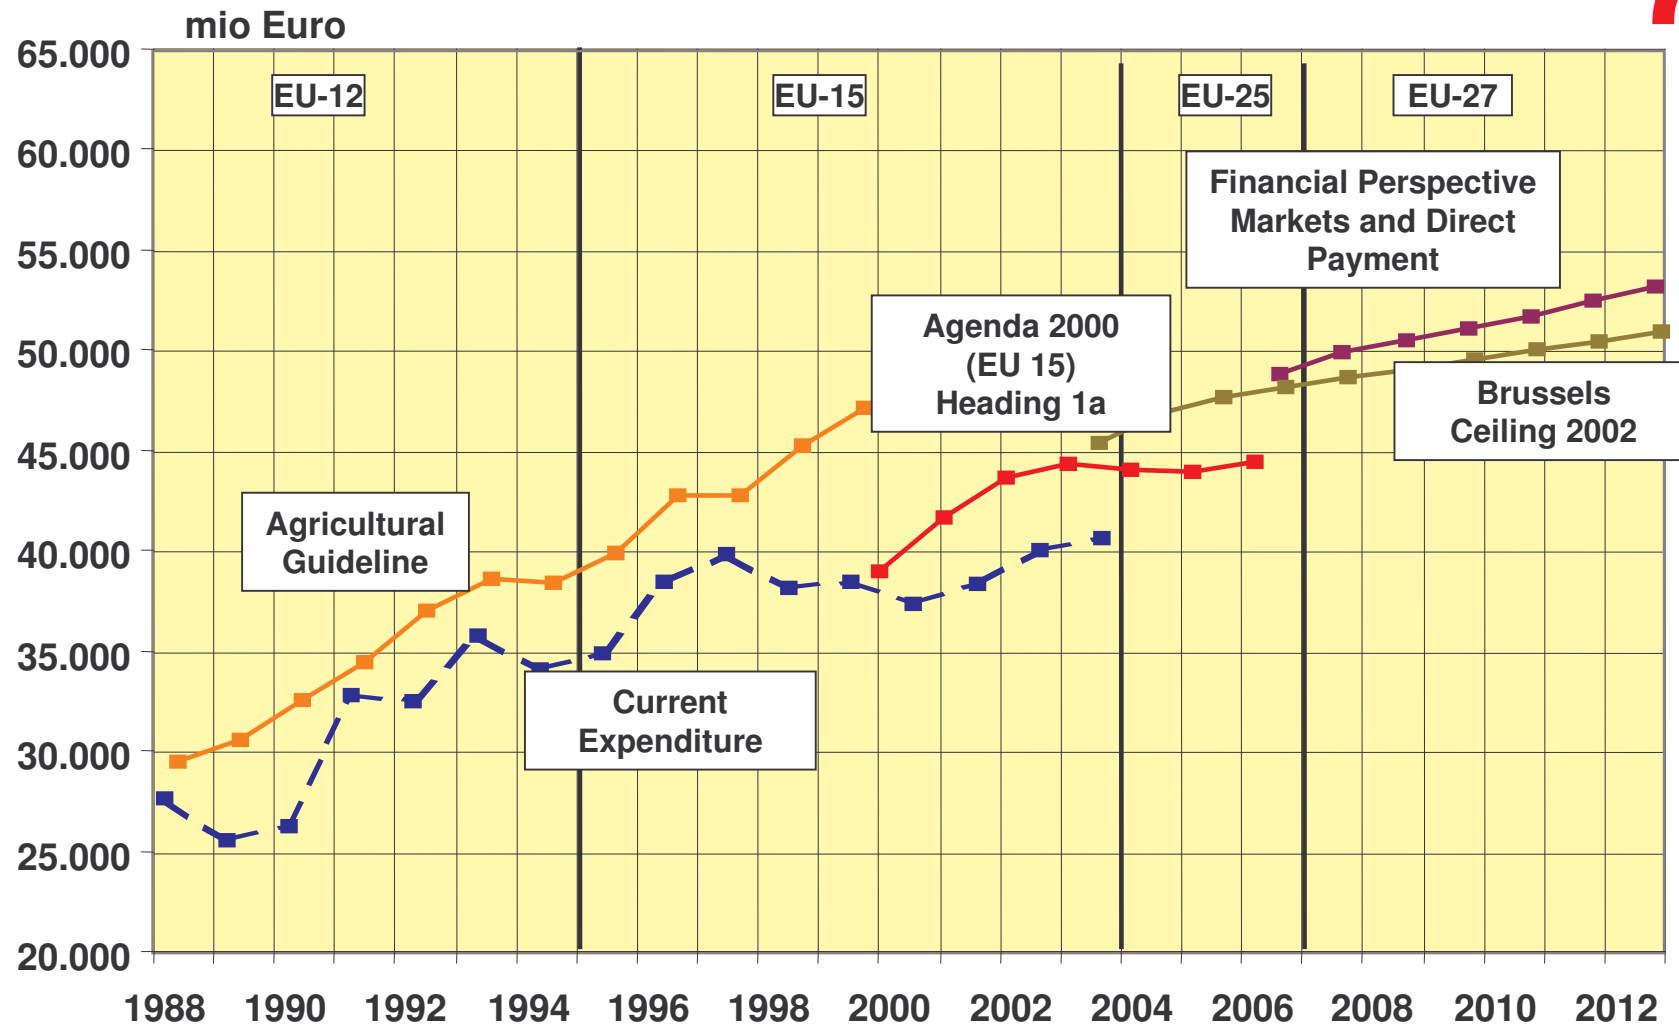

Budget Review:

- Invitation by December 2005 European Council to the Commission to make a full wide-ranging review in the context of the Financial Perspectives
- Covering all aspects of the EU budget, including the CAP, and resources, including the UK rebate
- Juxtaposition with the “health check”: 2008/2009
- CAP budget secured until 2013 (?)
- CAP budget post-2013 ?

Challenges and Perspectives

European Commission
Agriculture and Rural Development

Challenges and Perspectives

European Commission
Agriculture and Rural Development

WTO negotiations:

- Uncertainty over Doha Round

Scenarios:

- What are the policy options?
- What is the effect of the policy options?

European Commission
Agriculture and Rural Development

Thank you !
